## Participants

Members of world minigolf sport federation

(Austria, Germany, Sweden, Switzerland, Portugal, Czech Republic, Italy, and possibly others)

Teams per nation, 4 players for each team

Vintage 1996 and eventual vintage 1990 with no participants on EM/WM\* in the last two years (2018/2017)

\*NC, EC or Cup tournaments are not a criterion \*For expansions the organizer is responsibility

## Training

The minigolf place is reserved only for the members of Under 23 challenge for official training and first tournament day from 8.30 am to 6.00 pm. On Sunday is reserved from 8.00 am to 2.00 pm.

## Tournament

### Qualification day:

**Saturday:** Round Robin in two groups (5 teams for each group), playoffs: team vs. team with a total score of won lanes. The best two teams for group will go to semifinals/finals (Sunday)

**Sunday:** The teams from the third to fifth will play against the same position team of the other group to fix ranking 5th-6th, 7th-8th, 9th-10th.

Team A and B from every nation play in different qualified groups.

For the single tournament all rounds are good for ranking

## Referee

All coaches are referee of this tournament; the head referee is from WMF staff or in second time from Italy. Rules from WMF Fairplay guide. The rules book will be available on the course.

## Tournament fee

For days of training, days of tournament and opening ceremony every nation will pay 20,00 € for each player and 10,00 € for each coach

## Declaration

**Final declaration on 16th January 2019 to: [nazionali@figsp.it](mailto:nazionali@figsp.it)** (Alberto Pirovano, Paolo Porta)

## Prizegiving

Cups and 5 medals to the first three teams and a gadget for all players and coaches.

Pictures on the podium for the best three teams.

Medals for the best five male players and three female players

- 16 Transparent clicker, clicker
- 17 R Piepen ML, R FFK violet, Bof Monza 1985 kl
- 18 Plasten, Mini, Nuss, Caddy M, Al Pirovano 04

## Plan of the course

Lane 1: slow shot on the middle of the right side and passing near the hole on the right side the ball goes to goal. It's not possible a good return when the ball catches the hole a little bit.

Lane 2: very slow shot on the middle of the left side and 95% of good shots go directly to the hole without return from the top of the circle.

Lane 3: slow shot from the middle of the start circle and entering into the obstacle on the right side, so the ball can go out clearly.

Lane 4: it's not so easy because you must prepare the ball (temperature) and play not so slowly but if you play strongly the ball return to your feet. In the second side, after the obstacle, the ball doesn't go directly to the hole but from the return from the top of the circle.

Lane 5: it's important to pass near the first stone (10 cm), so the ball catches the best line to the hole; it's very difficult the return from the top of the circle.

Lane 6: you can play to each side before the middle and the return is from the other side near the hole. It's important the way of putting at start.

Lane 7: you must play a quite slow shot to pass sweetly the hill so the fast ball doesn't jump too much and remain to the right line passing 15 cm right from the hole and return from the second beat to the circle.

Lane 8: you play slowly from the right side of start circle to the middle of the obstacle.

Lane 9: play to the left stone side very slowly and so the ball goes out in the best way to make ace directly; no return from the top of the circle.

Lane 10: there are two different shot; the first directly from a right side of the start circle to the hill, and the second beating the left middle of the hill. In each way of playing the ball makes a star line into the circle.

Lane 11: very slow shot; the ball must touch the inox side and goes to the hole.

Lane 12: slow shot catching the middle of stone side and later the left side and go directly or by return from the left side of the hole.

Lane 13: very slow shot passing 5/10 cm from the first stone so the ball can go near (2/5 cm) the hole and goes inside after 2 or 3 bounds.

Lane 14: you must beat the left side 15 cm before the finish and so the ball goes to right side and later near the hole on right side (5/10 cm) for ace.

Lane 15: it's one of two difficult lanes where you play slowly and exactly. The ball goes to the hole only by return from left side.

Lane 16: slow shot to catch the right side after the obstacle to pass on left side and make ace by return.

Lane 17: you can play slowly to the left side and after the obstacle catching the right side and go directly or by return; the second shot directly with two different return or directly

Lane 18: easy shot on each side.
